About this product

Audiophile 2x2 USB Audio Interface with Midas Mic Preamplifier

U-PHORIA UMC22

Input (no DI box required). The rich feature-set, which also boasts a powerful Phones Output for the Direct Monitoring of your session, plus 2 Outputs and USB-supplied power – makes the UMC22 the best, and most-portable recording interface in its class!

48 kHz Precision

You take your tracks seriously, and the UMC22 respects them too, providing 48 kHz resolution, for the amazingly-detailed and pristine recording quality your music deserves.

Studio in a Little Black Box

When those creative juices start flowing, you need a fast and easy way to get those musical ideas into your Mac or Windows computer – that's where the UMC22 comes in. Just plug in a microphone or line level source to the combination XLR/TRS input and your guitar or bass to the additional ¼" instrument input for the ultimate in studio flexibility. The easy-to-use UMC22 is ready whenever you are, ensuring an ultra-clean pathway to your computer's hard drive for stunningly-professional results – the perfect solution for the solo musician wanting to capture that next big hit!

Seamless Integration with Popular DAWs

The ultra-compact UMC22 is totally compatible with virtually all popular recording software including Avid Pro Tools *, Ableton Live *, Steinberg Cubase *, etc., so you can record tracks directly into you favorite computer-based DAW – and mix and master to your heart's content.

MIDAS - The Legend in Sound Quality

Ever since its formation in the 1970s, Midas has had a long history of innovation and leadership in the world of audio mixing consoles. Employed by the most famous touring acts and installations

world-wide, legendary Midas consoles such as the XL4 and Heritage H3000 quickly became industry standards. Midas has earned their impeccable reputation due to their no-compromise approach for audio and build quality and in particular for their Award-winning Mic Preamps which are considered by industry experts as the industry's best sounding designs. Building on this legacy, the XL8 and PRO Series of Live Mixing Systems continue this great heritage of Award-winning audio quality. Behringer is proud to incorporate a Midas designed mic preamp for the ultimate in high-quality audio reproduction in both live and studio environments. Find out more about Midas' amazing legacy by visiting their extensive website.

Convenient Monitoring

The UMC22 mix control allows direct monitor select, which means musicians can experience their performance clearly – resulting in a better performance and recording. With its powerful Phones Output, Direct Monitor select switch, Status and Signal Clip LEDs, plus USB-supplied power – the UMC22 is ready to go wherever you go.

Getting Connected

On the UMC22's front panel you'll find a combination jack that accepts balanced XLR, ¼ " TRS and unbalanced ¼ " TS connections, and an additional ¼ " TRS instrument input. The rear panel is home to the +48 V phantom power switch, a USB port for simple and easy connection to your computer and power, plus 2x 1/4" TRS output options for direct connection to studio monitors. It just doesn't get any easier than this!

Recording the Next Big Hit

The amazing UMC22 ultra-compact 2 x 2, 48 kHz USB audio interface allows you to record the perfect vocal or instrument tracks directly to your computer, thanks the MIDAS-designed Mic Preamp with +48 Volt phantom power for condenser microphones – and studio-grade 48 kHz converter for superb sound quality. Whether you're a singer-songwriter, producer on the go, or just need a rocksolid interface for running backing tracks at the gig, the ultra-dependable U-PHORIA UMC22 will help you shine in the digital domain.

Professional sound for everyone. Part of Music Tribe.
